SENSATIONS

Sensations is a garden designed for the enjoyment of Highland residents and their families. A lovely outdoor retreat. A quiet place to share a hug. A pleasant setting where the beauty of nature can be seen *and felt* by all.

SMELL ~ The fragrance from a nearby rose garden mingles with the fresh smell of cedar that permeates the air around our spacious gazebo. An inviting place to relax in the out-of-doors, protected from the sun.

SIGHT ~ The lush beauty of delphiniums, hollyhocks and lavender are often a reminder of younger days. Our antique garden gives an opportunity to enjoy today's colorful beauty through the eyes of memories past.

TASTE ~ Our herb garden is a place where residents are enticed by the taste of fresh mint, thyme, June berries, and strawberries, too, when in season. A tasty treat to the palate—a welcome reminder of childhood.

TOUCH ~ Sunlight touches the glittering waterfall that splashes into the pond below.

Droppers reach out to an extended hand, or to the friendly frog who makes its home amongst the water lilies. And the loving touch of a resident's fingertips finds a petal's softness on an afternoon stroll along the pathway.

SOUND ~ A robin's song or the rapid fluttering wings of a hummingbird, as it feasts on bright coral bells, can be heard by a listening ear. So, too, can the sound of water as it cascades down a stone path and splashes into a pond below that is home to a familiar, friendly frog.

Our staff has been with Highland for many years. They are familiar "Friends" to our residents, take pride in the care they give, and have a clear understanding of the importance of making folks feel at home.
